

USA Pulses Research Listing

FY 2025-2026

Title	PI	Institute
Pulse Crop Breeding	Kevin McPhee	MSU
Wild Assistance for Improved Resistance to aphanomyces root rot in pea	Clarice Coyne	WSU
Winter and Spring Legume Variety Trials in Idaho and Washington	Kurtis Schroeder	Uofl
On-farm variety testing at north and southeastern Montana	Chengci Chen	MSU
Pulse Crop Germplasm and Cultivar Development	George Vandemark	USDA/WSU
Development of Winter Pea and Lentil Inoculants that Promote Yield, Seed Quality (Protein content), and Root Rot Disease Resistance	Svetlana Yurgel	USDA/WSU
Monitoring Fungicide Resistance and Enhancing Management of Ascochyta Blight of Chickpea in the Pacific Northwest	Weidong Chen	USDA/WSU
Pulse Quality Survey and Storability of Pulse Flour	Clifford Hall III	SDSU
Chickpea protein techno-functional quality as a function of legumin-vicilin ratio and hybrid fractionation for potential food applications.	Girish M Ganjyal	WSU
